2

## Configuration

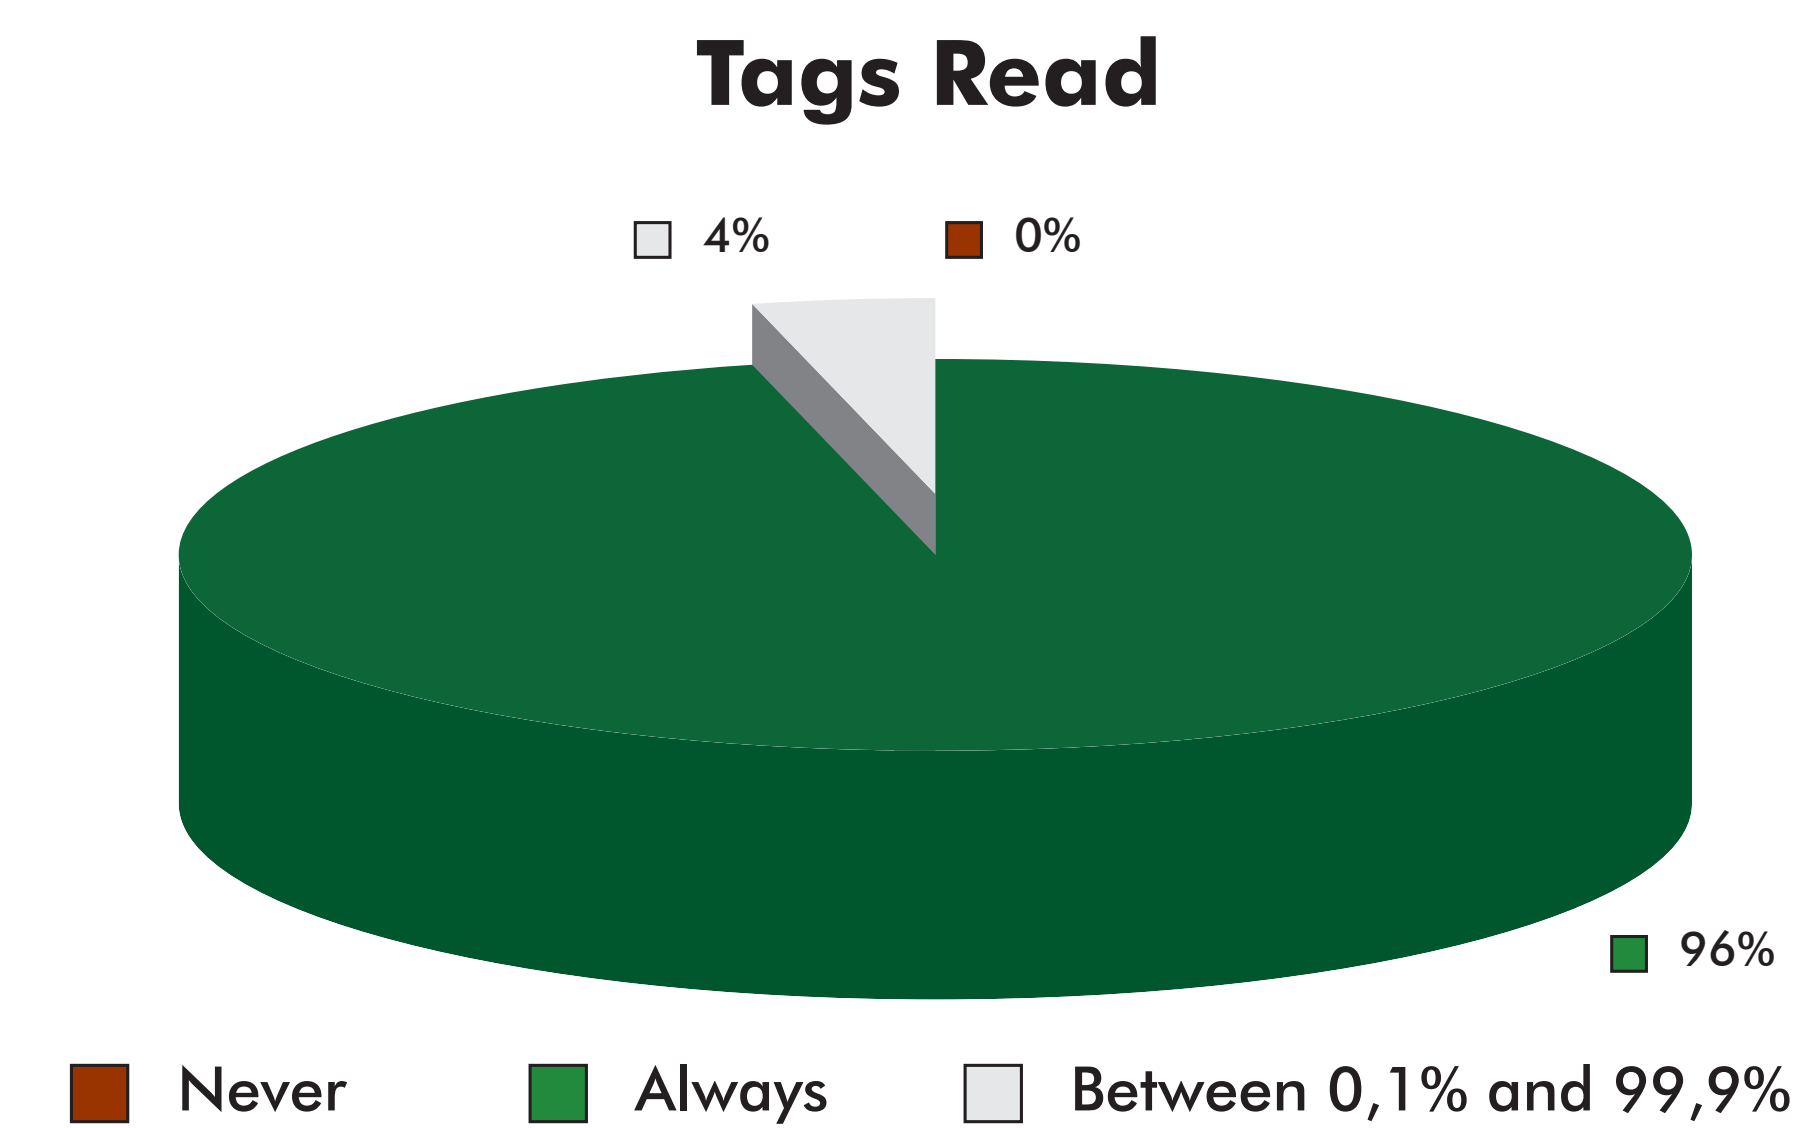

## Antenna positions and reading cycles

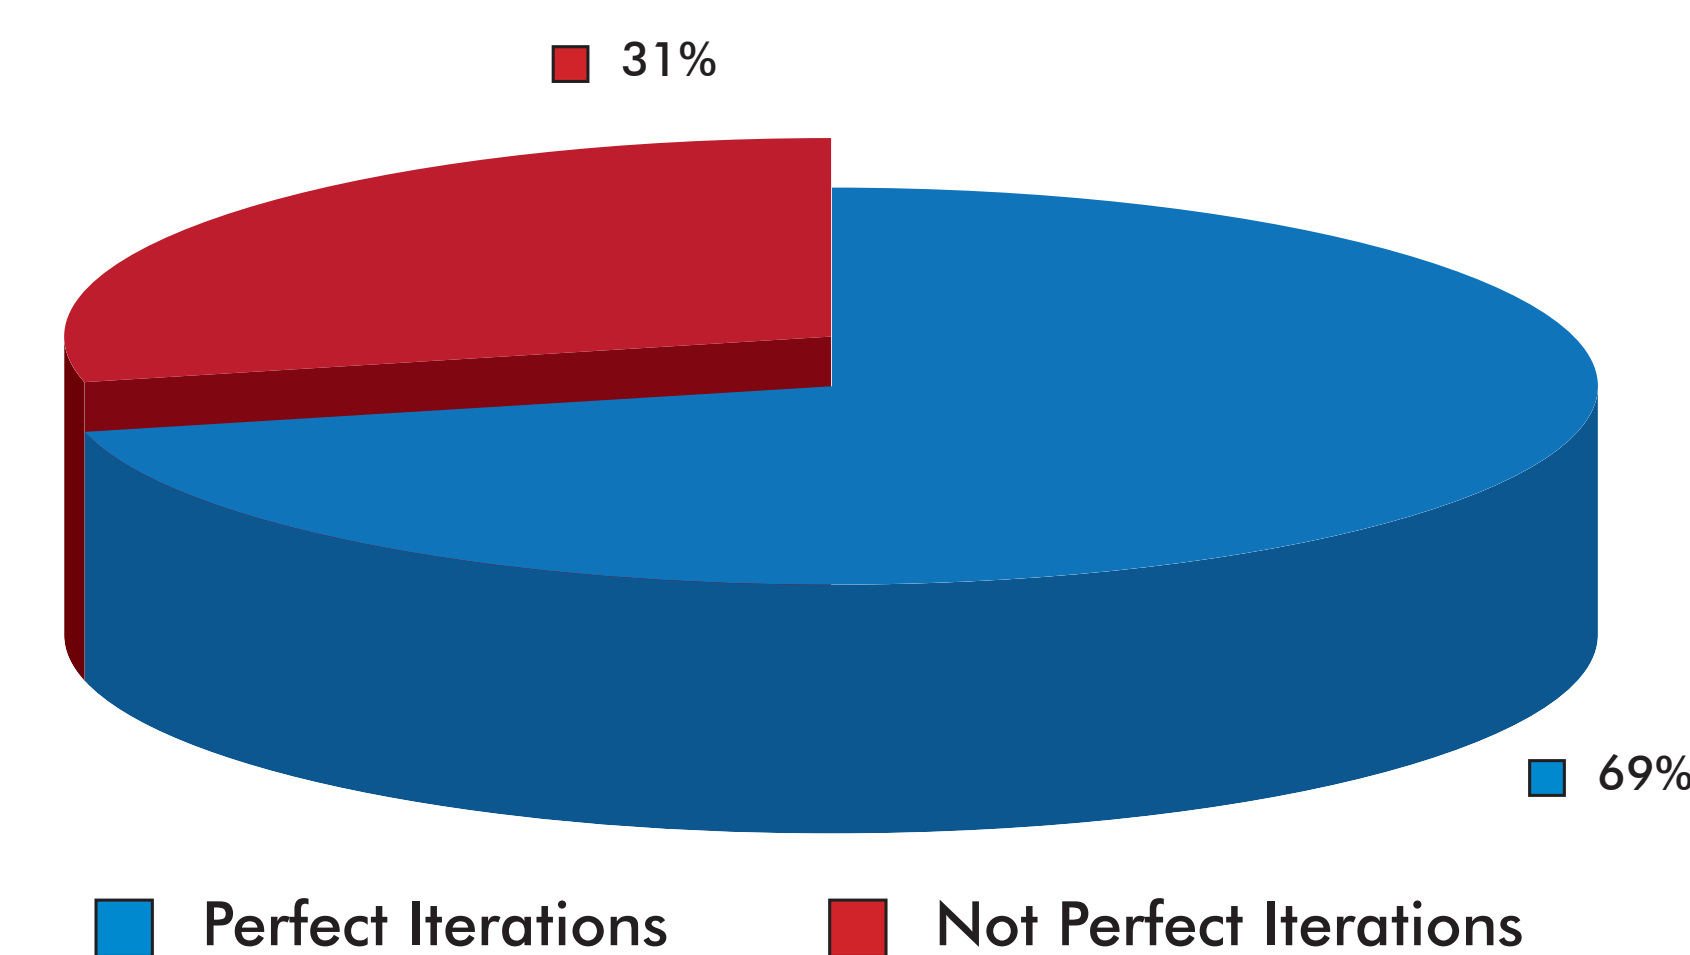

3

## Results and Benefits

## Final Configuration Percentage of Perfect Iterations

**Horizon:** 100% of the cartridges being read 100% of the times.

4

## The Smart Shelf

The Smart shelf intends to provide a real time business intelligence and a unique buying experience.

- Stock control
- Supply chain visualization
- Sales intelligence

RF problems that had to be overcome: Dense tag population in a problematic environment.
